Permission for Extraction of Groundwater

Provided as a service through 'SilpaSathi' the Online Single Window portal of State (WB)

Introduction

This document is intended to serve as a User Manual for grant of the service “**Permission for Extraction of Groundwater**” by **Water Resources Investigation and Development Department (WRI & DD)**, Govt. of West Bengal through Single window of the State, 'SilpaSathi'. The service is integrated with the Single Window (SilpaSathi) and can be accessed through the SilpaSathi portal. This document has been designed as a user-friendly guide to assist applicants in filling their application forms. It will help them to familiarise with the entire procedure in a seamless manner for successful submission of application and download final Approval certificate from the SilpaSathi portal without the requirement of physical visit to the Department(s).

Salient Features of Silpasathi Portal:

- The Single Window Portal of the State of West Bengal (SilpaSathi) allows seamless integration with portals of different government departments thereby providing single login credential for various applications, eliminating the need to provide common information multiple times in different forms of various Departments, and ensuring all clearances are available from a single portal.
- It serves as a digital gateway for providing the necessary statutory compliances under the applicable Acts, Rules, Policies and Schemes of the Govt of West Bengal from a single portal.
- Business Entrepreneurs can get certificates and licences required for setting up and operating business in the State in a smooth and time-bound manner, smooth and time-bound manner, without the need to visit any government department or office.

About the Service

Permission for Extraction of Groundwater service is required for obtaining permission from legal authorities regarding extraction of groundwater. Groundwater extraction is primarily done to fulfil various human needs, including drinking water supply, irrigation for agriculture, and industrial use. Groundwater is often used as a reliable source of freshwater, particularly in areas where surface water resources are limited or unreliable. The online system has the following features without the requirement of physical visit to the Department: 1) Submission of Application 2) Online Payment of fees 3) Track Status of Application 4) Online Download of final approval certificate 5) Third Party Verification.
